Local Industry Shows Satisfactory Progress At Annual Meeting.

BIASIS AND STEEL GOODS COMPANY, LIMITED, INC. A SUBSIDIARY CONCERN - CAPTAIN STYCE, STILL BE INCORPORATED AND NAME CHANGED - THE OFFICERS AND DIRECTORS.

At the annual meeting of the Biasis and Steel Goods Company, Limited, held at the factory, Colborne, Ont., on Monday, January 31st, 1910, the attendance was large and much interest was taken in the affairs of the company.

The statement of the output for the past year was satisfactory. The Directors were instructed to apply for an amendment to their charter increasing the capital stock and changing the name of the company.

The Directors elected, for the coming year, Mr. William Howard, J. F. Wile, J. J. White, George Lewis and Mr. C. J. Bickel. After the adjournment, the Directors met and elected the following officers:

Mr. Mackenzie, President, J. F. Wile, Vice-President, W. C. Hastings, Manager, Director and Treasurer. It was resolved that the company is making satisfactory progress, it is now and that the Biasis and Steel Goods Company's business in January, 1910, was far in excess of any month in the company's history.

Remodeling of the Chamber.

Acoustic Properties of Legislative Assembly Room Bad.

J. W. Johnson of West Hastings says he has to Read the Papers to find out what goes on in the Sittings of Legislature—Alterations in Present Chamber or Construction of a New One.

Toronto, Feb. 3.—The remodeling of the present Legislative Chamber, of which the construction of a new one, probably in the west wing of the building, was forwarded yesterday when the House launched into a discussion of the acoustic properties of the chamber and the inability of the members sitting remote from the Speaker and Ministers to hear and take part intelligently in the debates. J. W. Johnson (West Hastings) started the discussion by announcing that he was obliged to depend largely on the morning newspapers for his knowledge of the proceedings in the House. He ventured to suggest that the members sitting remote from the Speaker and Ministers should be seated in the front of the chamber, so that they could hear and take part intelligently in the debates. SIR G. DRUMMOND DEAD

President of Bank of Montreal Passes Away at His Home.

Great Canadian Financial Success at the Age of 80—Was Engaged in Many Enterprises, and Was Strong Protectionist—Was Called to Senate by Sir John A. Macdonald in 1878—Philanthropist and Art Patron.

Montreal, Feb. 3.—By the death of Sir George A. Drummond, president of the Bank of Montreal, which took place early yesterday, the country loses an able financier and one of its most prominent men. Sir George was 80 years of age, and did not come to the country until he was 25 years of age. He was a Canadian through and through, and a strong protectionist in the line of his adoption, he favored tariff reform in the old land.

When Sir Richard Cartwright told the country that the Government was not to be trusted as far as the country was concerned, Sir George was one of the first to stand up for the Government. The Great White Sale

Is now on at Ritchies

This season's White Sale promises to be the most successful in this store's history. Never before have we planned so broadly, never were stocks so large or well selected as now and never were prices so low.

In spite of the price of cotton being higher than ever known, we are offering thousand of dollars worth of new, perfect White Goods and White wear at the lowest prices ever asked.

Great savings were effected in purchasing for this sale, yet we never, for one moment, lost sight of our standard of quality, and this splendid combining of reliability with low prices should induce every woman to buy her year's supply of white goods now. We know that our values cannot be duplicated anywhere.

Bargain in Corset Cover Embroideries

Canada Should Adopt the
Pillmoil Mark

As very early pointed out by the Belleville Times, the toll of death marine circles on the Upper Lakes is

more than twice as heavy than last season during the same weeks of the year.

During 1902, 20,000 tons of wheat were lost in the Great Lakes.

At Detroit, Mich., it was brought out that the loss of wheat was the chief cause of the large percentage of losses that have taken place during the past year on the

lake. Mr. A. C. Wright, of the Dominion Marine Association

has been for some time, and is headed far beyond the safety limit.

At the bottom of the trouble is the fact that the owners are trying to get the most out of the boats and the greatest number of trips, and the captain, who is trying to get his competitors to make the best time, as it is, we have all got to contribute for the other man's

loss. Commenting on this expression of opinion, the Belleville Times says:

"When corporate greed becomes the great contributory cause of disaster of this nature it is time for the Government to take action to take the action with a view to lessening the loss to the public."

The United States Coast Guard might help the situation materially by adopting the "Pillmoil mark" of that country.

The Pillmoil mark is known and respected of the sailor from the archipelago of the South Sea to the archipelago of the North Sea.

A Dignified Rebuke to
Sir Wilfrid Laurier

The London Times commented on Sir Wilfrid Laurier's speech before the National Club in the following terms:

"The Canadian Premier assures us that he is not a politician, but a statesman."

It is not clear how the Premier can be a statesman, but it is clear that he is a politician.

ZAM-BUK CURES PILES

EVIDENCE FROM ALL SOURCES

There are no more painful "piles" or piles that sufferers are not cured by a line what to try. Piles are caused by a disturbance of the hemorrhoidal system, and the time becomes highly inflamed, dry and sore.

Friday

The character of the individual depends upon the quality of the life upon which he rests, and the character of the life depends upon the quality of the nation upon which he lives. The character of a nation depends upon the quality of the life upon which it rests, and the character of the life depends upon the quality of the nation upon which it lives. (Hon. Joseph Chamberlain.)

THIS DAY IN HISTORY.

Lady Victoria married, 1841.
Manitoba Legislative Council abolished, 1857.
Baker Vicks defeated, 1884.

TIMELY TOPIC.

Question is, will all this talk about the character of the nation upon which we live, bring down the price of the article most important? If not, as the girls would say, what's the use?

If looks, as the sporting editor would say, as though the Picton Hockey club "slipped one" on our heels while they were looking. The Picton and Kingston diplomats evidently determined to be in the lead in the competition for their star players.

If Picton ever wants to borrow the money we must be charged \$25 a day for it.
Well, it will be. Let's, however, try to give up playing hockey.

A lot of people still have the grip. They have their doubts about the character of this beautiful cold weather.

The new coat is getting away from this winter of it all. It is a second, just a little later than the first, and it is the most of the year.

Good friends. Is the Council after this, again?
The Imperial Valley of Picton is only, unfortunately, that the average man on this side of the pond looks like a good fellow, but the average man on this side of the pond looks like a good fellow, but the average man on this side of the pond looks like a good fellow.

Prof. Carter, of Harvard, solemnly states his conviction as a cosmologist that the world is not a sphere, but a flat disk. He should be a good fellow, but the average man on this side of the pond looks like a good fellow, but the average man on this side of the pond looks like a good fellow.

Some wintering of the food in Paris was caused by Italy's control. Paris was the result, we see here, caused the war.

"Did you ever see anything so uninteresting as the weather?" asked the star boulevardier.

"Well, there's your board bill," answered the West Belleville landlady.

VERSE AND PROSE.
With sentiment in favored verse, the poet of inspiration will find. The product would be the true verse.

"I wish I were in Paris," said the woman who had just been asked to go to the opera. "I wish I were in Paris," said the woman who had just been asked to go to the opera.

James J. Hill told the news of America to hang up the telephone receiver and go to the market. He said, "Mr. Hill controls millions; he makes them himself, and is known world wide."

STILL GENERAL.
The genial, genial banker, is offering with a ball. It was standing up when we interviewed him the other day.

In Paddy Alberta the farmers are ploughing, as are the Ontario farmers—now ploughing.

Principal Pennington, of McGill University, says a certain High Canadian statesman "is the son of a Canadian lady, and the son of a Canadian lady."

At the present time we have on every side the Canadian flag flying. It is flying in Canada during the past few years, and it is flying in Canada during the past few years.

Classified ads. search out the people to whom—among all of those who MIGHT BUY—the particular thing is worth most.

That property you want to sell is WORTH MOST to someone who reads the ads. In this newspaper—and would never hear of you property unless it were advertised here.

Others, who read and answer ads. in this newspaper, want (and are anxious to find and pay cash for) books, automobiles, used machinery and furniture, articles of usefulness of any sort, slightly worn clothing and musical instruments.

As the classified ads. are read by all possible buyers, of all possible sorts of things, they have come to be the finders of the best markets!

NOT SO SURE AFTER ALL.

New One Little Girl Told Santa She Still Believed in Him.

Margaret was getting to be a big girl—she would be nine years old in February—and Mrs. Darby's heart was with the realization that her baby was a lady no longer.

"And what more, I don't believe in Santa Claus," announced Margaret one afternoon in December at the end of a declaration of independence, during which she had renounced her allegiance to the most cherished of her mother's superstitions. "I don't believe in any old man with a white beard and a pack on his back, who comes around climbing down people's chimneys, and I'm not going to give him any more of my money."

"Very well," said Mrs. Darby quietly. "You needn't believe in him if you don't want to. If I were you, though, I don't think I'd stand quite so near the fireplace. He might be listening up there, you know, and Christmas Eve is sure to be a busy time."

To this Margaret made no reply, but somewhat later, occasionally, as though without ulterior motive, she moved away from the fireplace to the window, where she took up a position to gaze out on the fast falling snow and the twinkling of the holiday decorations. For some time there was no sound in the room but the click of Mrs. Darby's chin and the crackling of the fire.

"He" suddenly came from the fireplace, and Mrs. Darby looked up to find Margaret back in her old place, with her head tucked over the grate for as the last word uttered.

"Yes, daughter, I am listening." "He" repeated the word in a softer, naturally loud voice. "You know what I said to you awhile ago about not believing in Santa Claus?"

"Yes, what if?" "Well, now, isn't this a job?" This was fairly shouted up the chimney.

A moment later as Margaret stood beside her mother she asked suddenly: "I say, ma, do you think Santa Claus heard that?" "Yes, darling," said Mrs. Darby, "an almost certain he did."—New York Tribune.

Priglit Fun.

"So you're on a diet, are you?" "Very up dinner has limited me to a few of the coarsest and simplest kinds of food."

"It's about noon. Won't you go in and have lunch with me?" "It's very kind of you to invite me. I should enjoy it."

"Very well. We'll go into the grill room."

After they had secured seats in a cozy corner the host asked: "Won't you look over my bill of fare and see whether there is anything on it that you can eat?"

"Thanks," said the man who was dining. "I think I'll have an oyster cocktail to begin with and some chicken salad. Let me see, I guess I'll not want, in addition to what I'll have of the roast turkey, some New York salad and—well, never mind the dessert now. I'll decide on next time."—Chicago Record-Herald.

Hard to Tell.

"If your mother bought four bunches of grapes, the shopkeeper's wife being supposed to be a miser, how much money would she have to pay for them?"

"You never can tell," answered Tommy, who was at the head of the class. "It's all right at bargaining—London Answers."

Recent Inventions.

In a new car better, the invention of a Connecticut man, the wire driver is provided by pulling a wire through the center of a spring wound around a drum attached to the top of the dashboard. The most recent automobile tires, "Pneumatic" tires, have been invented by a number of patent blocks to be used in a steel chassis and to be replaced by a new surface of the tire.

A patent has been granted to a Louisiana man on a phone in which the tone is produced by a piece of metal which may be adjusted or regulated and increased by glass pieces of wax which are used in the tone.

Facts From France.

The Bank of France is owned by 25,000 shareholders.

According to the Paris Mail, France will build over 250,000 headmills every year for the next six years.

The telephone service in Paris is absolutely the worst in Europe. The operators are inattentive, and service is obtained only after extraordinary delay.

Official statistics for the first six months of 1905 show a continued decline in the population of France. The marriage decreased 6,200 as compared with 1904.

KIDNEY TROUBLES

Are Overcome By Dr. Morse's Indian Root Pills

The kidneys have a very important work to perform in preserving health. All the blood passes through them over and over again and they filter it, removing all impurities and then expel through the urinary system.

When the kidneys for any reason fail to perform this function, and the impurities are left in the blood, about the most distressing series of ailments which afflict mankind are the result. There is the aching back and a feeling of weakness, and, as conditions grow worse, rheumatism, Gravel, Diabetes, Catarrh of the Bladder or the Stomach, Indigestion of the Bladder or the Stomach, Bright's Disease.

The man or woman who allows kidney trouble to develop into any of these diseases is doing himself or herself a grave injustice, particularly when a cure can be had so readily. One of the constituents of Dr. Morse's Indian Root Pills is a Diuretic, which increases the action of the bowels and the pores of the skin, which removes some of the impurities, thus lightening the work of the kidneys.

Mr. Geo. Whitney, of Buffalo, N.Y., says they worked wonders for him. He writes: "I have suffered from kidney trouble for many years. I suffered for years from liver trouble and kidney ailment. I tried one medicine after another, but without good results. Dr. Morse's Indian Root Pills have cured me after trying four boxes."

Dr. Morse's Indian Root Pills should be taken at the first sign of back-ache, of rheumatism, or of any difficulty in urinating.

ANALYSIS OF St. Lawrence Sugar THE STANDARD OF PURITY

Laboratory of Provincial Government Analyst.

MONTREAL, 2nd February, 1906.

I HEREBY CERTIFY that I have drawn by my own hand samples of the St. Lawrence Sugar Refining Co's EXTRA STANDARD GRANULATED SUGAR, indifferently taken from four lots of about 150 barrels each and lots of about 400 bags each. I have analyzed same and find them uniformly to contain 99.7000 to 100 per cent of pure cane sugar, with no impurities whatever.

Monday

The strictest winter is at times the most boring. When you expect your attachment is as strong as death and you are as ready as a soldier for the mood. They are hungry for death and almost for sacrifice. Their love is a duty, their tenderness a religion; and they triple the measure of love by administering it as a duty.—Henry Frederic Amiel.

THIS DAY IN HISTORY.

Iving, actor, born, 1838.
Pope Pius died, 1907.
Viscount Grey died, 1907.

TIMELY TOPIC.

Let's see. Did we discover the South Pole yesterday?

Statements as to the severity of the cold vary from 15 to 35 below zero. The latter seems to be the nearest.

Anyhow, we broke the record for this winter, but nobody is proud of it.

Britannia may look the wars, with the assistance of Lewis and the prospective Canadian navy, but Old King Cole is how when a cold wave comes along.

There seems no further reason to worry over the crop.

A recent article was standing on the street corner talking about the weather.

"I've felt it cold," he said. "What do," said the fellow he was talking to, "look at your nose."

Well, the nose indicated the reputation of the weather prophet. Early last week it was predicted that a cold wave would strike us from Saturday night to Monday. The goods were certainly delivered.

Germany wants to borrow twelve million. We have here. How can you now need?

The new census will contain traces of sodium. Even counts must be taken with a grain of salt these days.

CONGRATULATIONS FROM GUTHRIE.
(George Mercury.)

The Bellevue case, noted, and commented by the City Bulletin, made a profit last year of \$527.15 over and above the annual payment of interest on the sinking fund and interest of \$620.00 and over all operating expenses. The waterworks payments of sinking fund principal and interest of \$1,067.25 and over all operating expenses.

Well done, Bellevue. As the most successful person in the field of municipal ownership fudge like us the success which attends the efforts of city cities who follow in the same pathway.

A bank is over all. The money trust. The money trust is a great power. Working with others, you are money.

White slavery, the same name and same meaning. The same name and same meaning. The same name and same meaning.

Up to Date Domestic.

Having recently engaged an eight-year-old girl to be domestic of a New York woman was the various questions of privilege.

"You will have to be a domestic of the house," said the mistress of the house.

"You may be a domestic of the house," said the mistress of the house.

"You may be a domestic of the house," said the mistress of the house.

"You may be a domestic of the house," said the mistress of the house.

"You may be a domestic of the house," said the mistress of the house.

QUALITY AND REPUTATION VS. IMITATION.

Imitations of well-known articles are everywhere, because the imitating world will not be worth while to the original and genuine article has gained widespread publicity and popularity through its reputation of quality and merit.

This reputation is a guarantee and protection to you, if, when you, you refuse imitations and substitutes, and insist on getting the ORIGINAL AND GENUINE ARTICLE.

Well, then, we'll be fighting for a little of this year.

The Montreal Convention, a very Conservative journal, is rather dubious of the probability effects of local opinion.

It says: "Sir James Wadsworth is reported as saying that in a shorter time than many imagine, there will under local opinion be no sale of intoxicating liquor through out rural Ontario. The steady flow down by the people for local prohibition in the annual meeting, the election suggests that the Ontario Premier has some justification for his statement."

It is the approval of the area under local opinion will curtail the annual consumption per head of beer. So far it has failed in this matter."

The Temperance Question.

To the Editor of The Intelligencer:

The temperance question is a large one, and one which has been discussed for many years, and almost every city, town and township has had some sort of a temperance question to deal with.

All but a few number of letters to the editor of The Intelligencer have been sent to deal with the temperance question.

Women's Christian Temperance Union, Royal Temperance, and many other organizations, are all working for the temperance cause.

TIMELY TOPICS.

Will higher market tolls tell the tale of the best market? A pessimist told us it would, but we don't believe him.

A factious chap says it will be easy enough to get hard heads on the streets if we have enough hard heads in the Council. Well, among 22 heads, some of them ought to be hard heads.

A Kingston drummer gave away a thousand loaves of fine powder to the ladies of that city. He wanted to get a different complaint on the market but it sounds like a poor complaint to the Kingston ladies.

Scientists say there is a deadly poison in the tail of Halley's comet, and as the earth will pass through the tail this fall, in the opinion of some astronomers, should be a very good time for the average man to make his will. Well, what thing ever, if the comet's gas kills us we won't be drowned.

Talking astronomically, "The Red of the North" might last a little of black specks in it.

Perhaps it was as well the Belleville Council did not win in Toronto. Some of 'em might not have protested for having ever ago.

It would appear that many Kingston men are anxious to follow their correct age. Just like the celebrated old maid of that dear old burg.

"To up your ass and make it." That is the order sent out by the Ontario Government to 23 counties. Refusal to comply means a fine of \$100.

The cost of living is said to be 25 per cent higher in the States than in Canada. They need better salaries in the land where Old Glory waves.

Discussing the question of living the New York Journal of Commerce gives some of the causes: "Excessive gold supply, currency inflation, increased cost of production, expansion of credit, speculation, growth of population, consumption, overtrading production, short crops, shorter hours of labor, advanced wages, trade, trade agreements, legislative restrictions, creation of new industries, advances in land and real taxation, extravagance." Speaking in the contrary, it goes on to say:

"The bridge party given in honor of the Kingston fair earlier in this city, last night, was a grand success. The bridge party given in honor of the Kingston fair earlier in this city, last night, was a grand success. The bridge party given in honor of the Kingston fair earlier in this city, last night, was a grand success.

Killed the Biggest Snake in Captivity.

New York, Feb. 8. — Ben, the champion of the Bronx Park, the largest reptile in captivity and the deadliest, was murdered yesterday. He was a magnificent specimen of his kind, and his death was a great loss to the park. He was kept in a cage with other snakes, and his death was caused by a fight with one of them. The fight was witnessed by a large number of people, and the death was a great surprise to them. The snake was kept in a cage with other snakes, and his death was caused by a fight with one of them. Hampton's Magazine

(\$1.50 a Year)

BOTH FOR \$2.00

INCLUDING

Peary's Own Story

Of the Discovery of the North Pole

Of course you will want to read it—every word of it. Everybody is talking about it. No man ever put up such a remarkable and persistent fight against natural conditions as did Peary. His story is the most entertaining, most exciting of all tales of adventure and discovery in the most interesting part of the world.

Peary's story is the last of the world's great stories of discovery, told by the brave and sturdy American, who through 23 years of privation and peril sought that spot on which he finally and triumphantly placed the Stars and Stripes.

A \$50,000.00 Story

Commander Peary has chosen HAMPTON'S MAGAZINE in which to tell the world his remarkable story of the Discovery of the North Pole. Recognizing the intense desire on the part of our readers to enjoy this wonderful historic narrative, we have made special arrangements with the publishers of HAMPTON'S, by which our readers may get the many other expensive features published in HAMPTON'S MAGAZINE in connection with our own paper, practically without extra cost. Peary's story is the highest-priced editorial feature that has ever appeared in a magazine.

HAMPTON'S is a new type of magazine which has rapidly jumped to the front by reason of its tremendously interesting feature-articles and strong entertaining fiction by the best writers.

PEARY'S STORY is only one of the many big features which will appear exclusively during 1910 in HAMPTON'S. It will be richly illustrated with hundreds of remarkably interesting photographs. Every man, woman and child should read it. It will go down in history as one of the biggest events of the century.

Special 60-Day Offer

By special arrangement with HAMPTON'S MAGAZINE we are able to make the following remarkable offer to our readers. To insure getting Peary's complete story, your subscriptions should be sent at once. THE SKIPPER'S WHITE LIE.

What Happened at Night and Why the Passenger Was Told.

It was a dirty night, to use a sailor's phrase, and the ship was out of the smoking room drifted to events at sea and the children faith that passengers receive in navigation.

Said the scientist who had been collecting specimens on a coral reef:

"I've often heard men and women say they felt no safe with Captain Robinson, and I've wondered, too, whether their sense of security would still be retained if these favored travelers knew exactly what happened on ship-board during a voyage. For my own part, I have more confidence than ever in a captain of my acquaintance since I learned that he could tell a white lie when it was necessary to calm the fears of nervous women."

"I am sure of it. It can be proved that one foggy night I was awakened by the sudden stoppage and reversal of the engine, clumped out of my bunk, went on deck and was told by the second officer that we had had a narrow squeak. It appeared that we had nearly run down a submarine or she silently crossed our bows and disappeared into the sea."

"Next morning a woman passenger who sat at the cabin table asked him whether the engine had been stopped and reversed, and he replied: 'Yes, we sometimes do this to test the engineer's watch and see if our machinery is in proper order. Didn't it all right so as to create no excitement?'"

"There he got the woman to describe what she had heard and asked her, 'You feel much time between the stoppage and reversing?'"

"She replied: 'No.'"

"Then," said the skipper, "that showed how well everything was working, did it not?"

"When I got the skipper's ear I told him confidentially that I didn't think the schooner's engine had worked as well as he said, and he remarked that it might have been worse. Whether he meant the lie or the incident of the inquiry, but I suspect it wasn't the lie."—New York Post.

LAW OF GRAVITY VIOLATED.

Centuries Under Water. Water Actually Flows Upward.

"Water seeks its level" is an expression heard so frequently as to be almost trite, and yet the law is its exception. There are conditions under which water actually flows upward and rises above its source. If a glass tube be dipped into water the column inside will above the level of the surrounding water. Moreover, if a tube of half the diameter be inserted the column doubles its height.

The water creeps along the inside of the tube, owing to the adhesion, and forms a cup-shaped depression. An explanation is not difficult. It can be proved mathematically that if the diameter of a circle be increased one-fourth of the circumference the circumference of the column of water rising, reduced one-half, its contact with the glass and hence the adhesive force, is also diminished to that extent, while the cross section, and hence the weight, is decreased one-fourth of what it was before. Therefore the weight of the column is less than the lift without exceeding the lifting power.

Remarkable as the underlying principles of this phenomenon undoubtedly are, nature made use of them long before man made their discovery. Every tree and every shrub is a living column of water, rising higher and higher to the apex of the great law of gravity.—Los Angeles Herald.

Some of Danger.

Dr. Wm. of London has told that people should develop a sixth sense to inform them of the approach of danger in the streets. Lafayette Street once said: "While in the crowd I seldom look at faces. My intuition is almost infallible. Like that kind of sense which in absolute darkness one can quickly aware of the proximity of a hostile force. What has told one quickly and safely through a thick crowd is not conscious observation at all, but unconscious intuitive perception."

A Night Watch Paying Fun.

The cab, drawn by a weary looking horse, came to a stand opposite a public house. As the driver was preparing to descend a small boy ran up with a "Old per' son."

"Old my 'ere? Look 'ere, my lad, 'at'll give yer a job if it aint away!"—Manchester Guardian.

His Contribution.

"Have you ever done anything for the good of the community?" asked the saintly old man.

"Yes," replied the wary wayfarer. "I've just done thirty days."—Philadelphia Record.

The Very Latest.

"Nice car."

"Yes."

"Is it the latest thing in cars?"

"I don't know. It has never got on anywhere on time yet."—Chicago Post.

Such Bread Crust, Madam, Saves the Children's Teeth

In the halcyon days of yore, as the Poetical One might ejaculate, when we were much smaller in physique than appall and loved life better than death—

We remember yet how desperate we were to corrupt the bread crust before George's milk-teething began operations.

The golden crust of the loaves that Mother's hands had fashioned had a particular plate-pleasing quality for which we would then have freely sold our birthright.

There's a reason for this general childish craving for bread and crust. Mistress Housewife.

It's like this, you see. When you have mixed your dough and kneaded it to your entire satisfaction, the crust must be the red.

And when you keep the oven in any way's doing, as all good housewives do, you will find the golden crust, more golden on top, more appetizing every minute.

Till at last, if you use FIVE ROSES flour, your baking becomes complete and you take the oven a delicious bath of golden glory, around lawns, waving away the wind-blown leaves of a leaf-off whiff hair strand.

The best of years ever, Madam, has changed the shape of the golden crust, and your dear little plate-pleasing white-dried cutlets have become the golden crust of the golden crust. The golden crust of the golden crust.

Knows a man "examination"—what a big word.

This makes your crust very beautiful and appetizing. For the most appetizing and nutritious part of the loaf.

The pretty girls (which means all of 'em) were coming away from the post office this morning with sniffs all over their faces. The matter should be brought to Mr. Willy's attention at once. He and the editor of the Globe should soon meet matters.

A FISH STORY.

"My wife bought some fresh eggs in the market the other day," said a man in the market. "I ordered the top of one for supper, and it cost just like old fish. If fresh eggs at 25c a dozen and all that, what would the sale one cost?"

Climax of the Quebec Bridge Scandal.

Disappointment has come to them who hoped an end had been made of the Quebec bridge scandal.

This tragic affair has begun as a political dead end and ended in a terrible series of life and loss.

Though the bridge was to be part of the Transcontinental system, and must from the nature of the case have passed into the same control as the rest of the line, it was handed over to a private company to construct.

Premier Parent, of Quebec, was made head of the company, and when his colleagues kicked him out of the premiership, his friend, Sir Wilfrid Laurier took him to Ottawa as chairman of the Transcontinental commission, leaving him still the chairman of the Quebec Bridge Company.

The province of Quebec, the city of Quebec, (where Mr. Parent was mayor at the time) and the Dominion Government were all involved.

The company was expected to have made \$200,000, and the money was to be paid up by the politicians.

But, as the company was a private one, the money was provided by a loan by the Dominion Government.

The idea was that the public should finance the proposition, the company have the handling of the money, and that when finally the bridge was completed, the Government should pay for it, or terms had down, that is to say, giving the company interest on their alleged investment with a ten per cent. bonus.

Meanwhile, Mr. Parent and his friends had themselves excellent salaries.

But as the Government was paying for the bridge, and as the structure was to be part of the Transcontinental system, it was expected that the money would be paid up by the politicians.

back every dollar it claimed to have repaid on the bridge with interest from the start, and WITH TEN PER CENT. C.I.T.A.

It is an absolute and astonishing fact that this company sold the wreck to the Government on such terms.

Now conditions that it would have been entitled to sell to a complete and satisfactory bridge.

Mr. Parent got his \$500,000 a year salary for seven or eight years, in addition to his official income.

He got back all that he invested in cash and promotion services.

He got interest on it all, and he got ten per cent. bonus.

And the Government will not only have to hold the new bridge, but must clear out the wreck of the old.

Now comes the last mystery of all the case, the one that has caused the greatest concern among the people, the \$500,000 to meet a six million dollar responsibility.

It was suggested that the security deposit is no good.

Hon. Geo. E. Foster, M.P., has been asked to investigate the matter.

A Strange Duel in Which the Lineman Was Victor.

By ALVAN MILTON KEHL.

Trinidad, our line reporter, was rather

shoother, but with highly developed

mimicry, arms and shoulders

and with some of the best

everyday of labor with the wire

given a finger grip which would

the chance to avoid shaking hands

with him. He could make an amateur

with a few lines of wire, and

This remarkable power of con-

serviced him from probable defeat.

At the time of the duel, I wrote a brief

exchange. Several of the wire

wire the trucks and also those of the

lightning and power companies in the

streets. The result was a bad case of

induction, their respective machines

of electrical influence between

wire which were in direct contact.

The great was the influence of the

telegram and power wires which

the radio and clicking of the instru-

ments could be distinctly heard in the

telephone receiver, and the sliding

rust of the dynamo at the power

house was every now and then to be

heard in the place.

Peary's Own Story

Of the Discovery of the North Pole

Of course you will want to read it—every word of it. Everybody is talking about it. No man ever put up such a remarkable and persistent fight against natural conditions as did Peary. His story is the most entertaining, most exciting of all tales of adventure and discovery in the most interesting part of the world.

Peary's story is the last of the world's great stories of discovery, told by the brave and sturdy American, who through 23 years of privation and peril taught that spot on which he finally and triumphantly placed the Stars and Stripes.

A \$50,000.00 Story

Commander Peary has chosen HAMPTON'S MAGAZINE in which to tell the world his remarkable story of the Discovery of the North Pole. Recognizing the intense desire on the part of our readers to enjoy this wonderful historic narrative, we have made special arrangements with the publishers of HAMPTON'S, by which our readers may get this and the many other expensive features published in HAMPTON'S MAGAZINE in connection with our own paper, practically without extra cost. Peary's story is the highest priced editorial feature that has ever appeared in a magazine.

HAMPTON'S is a new type of magazine which has rapidly jumped to the front by reason of its tremendously interesting feature-articles and strong entertaining fiction by the best writers.

PEARY'S STORY is only one of the many big features which will appear exclusively during 1910 in HAMPTON'S. It will be richly illustrated with hundreds of remarkably interesting photographs. Every man, woman and child should read it. It will go down in history as one of the biggest events of the century.

Special 60-Day Offer

By special arrangement with HAMPTON'S MAGAZINE we are able to make the following remarkable offer to our readers. To ensure getting Peary's complete story, your subscriptions should be sent at once. Toronto, Feb. 17.—Tumultuous and

prolonged applause arose from both

sides of the House when Hon. Col-

man Clarke returned his seat in the

Legislature for the first time after his

recent illness. A vast of white

roses stood on his desk.

Sam Clarke (N. Northumberland),

in examining the debate on the budget,

congratulated the Provincial Treas-

ALTERATIONS.

We have closed the biggest year we ever had in millinery. Our

sales in that department were the largest we have ever had. But we

could have done more. Although we had very large show rooms for several

years, we have now made even more alterations and will have

at work here larger Show Room. Carpenters and decorators are at work

and we will have one of the finest Millinery Show Rooms in Canada.

A New Milliner

We believe that we have secured one of the cleverest milliners in

the country to take charge of this department for Spring. Miss Stubbs

comes to us with the highest recommendations. She has had for several

years the very best class trade in Hamilton. We are assured that under

her management and with increased space, this department will be more

popular than ever.

Miss Stubbs, with her head trimmer, is in New York selecting the latest novelties

for her department.

In the Show Room, associated with Miss Stubbs, will be Miss Minor, Miss Flanagan,

Miss Taylor, Miss Thompson, Miss Smith and a large staff of designers and trimmers.

Our Whitewash Sale

Will Continue All This Month.

Everyday new goods are being displayed to add to the attractiveness of the sale.

Comes in often, you will always find something new to interest. The hundreds who have

purchased since the sale began, can testify as to the beauty of styles, excellence of quality

and lowness of prices.

Perry's Own Story
Of the Discovery of the North Pole

Of course you will want to read it—every word of it. Everybody is talking about it. No man ever put up such a remarkable and persistent fight against natural conditions as did Perry. His story is the most entertaining, most exciting of all tales of adventure and discovery in the most interesting part of the world.

Perry's story is the last of the world's great stories of discovery, told by the brave and sturdy Americans who, through 23 years of privation and peril sought that spot on which he finally and triumphantly placed the Stars and Stripes.

A \$50,000.00 Story

Commander Perry has chosen HAMPTON'S MAGAZINE in which to tell the world his remarkable story of the Discovery of the North Pole. Recognizing the intense desire on the part of our readers to enjoy this wonderful historic narrative, we have made special arrangements with the publishers of HAMPTON'S, by which our readers may get this epic many other expensive features published in HAMPTON'S MAGAZINE in connection with our own paper, practically without extra cost. Perry's story is the highest-priced editorial feature that has ever appeared in a magazine.

HAMPTON'S is a new type of magazine which has rapidly jumped to the front by reason of its tremendously interesting feature articles and great entertaining fiction by the best writers.

PEARY'S STORY is only one of the many big features which will appear exclusively during 1910 in HAMPTON'S. It will be richly illustrated with hundreds of remarkably interesting photographs. Every man, woman and child should read it. It will go down in history as one of the biggest events of the century.

Special 60-Day Offer

By special arrangement with HAMPTON'S MAGAZINE we are able to make the following remarkable offer to our readers. To ensure getting Perry's complete story, your subscriptions should be sent at once. This offer is open for only a limited time, so you should fasten the coupon and mail it to us immediately.

EXPOSURE AND ALCOHOLISM SAID TO HAVE CAUSED DEATH—HIS HOME IS UNKNOWN TO THE AUTHORITIES.

On the street of this city, during the past two days, there was seen a man who attracted considerable attention from the fact that he was, in so far as he was known, a dwarf.

He was seen here, at an early hour this morning, he passed away in the great waiting room of the C. N. station. On Wednesday night he was arrested by the police and taken to the C. N. station.

To Secure Pure Milk.

Ontario Commission Presents Report to the
Legislature.

**Important Document is Laid on Table of Ontario House
—One Plain Comprehensive Act is Necessary to
Remedy the Evil—Municipalities Can Fix
Standard of Butter Fat—Adulteration
Definition is Needed.**

[illegible][illegible]

The tuberculosis case must go for 1,072,000 sows and 1,550,000 sows, and the cattle for 1,072,000 sows and 1,550,000 sows. Figures of 1969, even the lowest estimate of five per cent, means there are 1,072,000 sows and 1,550,000 sows, and the cattle for 1,072,000 sows and 1,550,000 sows. It is to be feared, however, that the true total would be much higher, and that the disease is the most potent cause of the disease in this province is the low, dark, and the cattle are the most frequent cause of the disease.

Care should be given to the transportation and retaining. "Milk should be kept in clean milk cans or kept in shops retained to dairy purposes. The larger cities, at least, should have bacteriological laboratories and tests.

Pasteurization is declared to be an important factor in the control of all it should be done properly. No milk should be sold as pasteurized unless it has been so treated.

AFRAID OF A COMBINE

**Dominion Miller's Bill Is Sent
Back to Committee.**

Mon. G. P. Graham Introduces His Bill to Amend the Railway Act—H. P. Miller Sharply Criticized For Sending Out a Pamphlet Reviewing the Anti-Betting Evidence—Serious Infraction of Rules.

Ottawa, Feb. 22.—Several matters of more than ordinary importance came before the Commons yesterday.

Hon. W. S. Fielding moved that the bill for the R. N. R. in the Algonquin be substituted on the public works committee for that of H. B. Ames, who is ill of typhoid in Alexandria, Egypt.

Hon. Geo. P. Graham introduced his promised bill to amend the railway act, containing a number of important provisions including:

(1) That the Railway Commission deal with works of companies and not with the works of the Government of lines without first obtaining the authority of the board.

That the Canadian railways get certain point as vice-presidents with certain defined duties, men who are not men-

(d) Deal with the necessity for drunken riding on the rear end of trains. Mr. Graham explained that drunken riders were a problem of this in crowded railway yards, but object to doing it over certain portions of lines of railways on the ground that in cold weather it constitutes a hazard.

(e) Provide that Canadian railways may give transportation to former employees or members of the interstate commerce commission of the United States.

The bill to incorporate the London and Lake Erie Railway and Transportation Co. was given a third reading. Mr. Graham said that the rights of the municipalities had been satis-

The bill respecting the Dominion Millers' Association was referred back again to the special committee, to give an opportunity to parties interested to be heard. Hon. Frank Oliver

Dr. Schnaffer (Bouris, Man.) thought there ought to be a thorough explanation of the intention of the promoters.

A. H. Clarke (South Essex) urged that the bill was to give smaller mills protection against bigger concerns giving them no right to act as traders by word and sell raw wool.

Hon. Wm. Forster also opposed the bill, remarking that if they had a little larger capital, it would provide a beautiful arrangement for a miller's trust against the farmers.

Maj. Genl. Sharpe (North Wales) objected to the restriction of membership.

H. P. Miller (South Grey) on a question of privilege, defended his action in distributing a pamphlet reviewing the evidence laid before the Royal Commission, in spite of the fact that the committee, in spite of the fact that the committee,

was submitted. As introducer of the bill, he claimed he had the right to comment on the bill.

F. D. Monk (Jacques Currier, one of the committee, said it was a serious infraction of the privileges of the House to introduce an irregular bill. It was strictly irregular to refer in the House to the subject matter of the proceedings of the committee.

Richard Blain (Peel, another member of the committee, said it was not in the best interests that the introduction of a bill should be chairman of the investigation committee.

New Spring Styles in Ladies' Tailored Suits

We are making our first showing of Ladies' Spring Suits. Already the collection is broad and offers good range of choice from the very newest of spring styles. Every garment shown possesses a smartness and individuality that is characteristic of Ritheby's garments. Quite a difference is noticeable in the styles—Coats are shorter and closer fitting, many have the deep notched collar, trimmed with moire, ottoman or basket silks; many of the skirts show the tunic effect, all are pleated in some manner. The fabrics are exceptionally fine in quality and represent all the favorite weaves in serges, worsteds, broadcloths, Venetians, etc., in a great variety of newest shades.

We ask you to come and see them and feel sure that we can please you, not only in style and fabric but in a material saving in cost.

All Prices from \$15.00 to \$35.00.

Ask to be shown our special silk-lined Suits at \$15, \$20 and \$25.

CANADA LIFE'S

Most Successful Year.

LARGE GAIN IN SURPLUS—BUSINESS INCREASED—EXPENSES DECREASED.

The Directors' Report submitted at the Annual Meeting of the Canada Life yesterday was as follows:—
The Directors have pleasure in submitting their 63rd Annual Report showing the transactions of the Company for the past year, and setting forth the financial position as at 31st December, 1909.

The Year's Applications to the number of 5,117 for assurances of \$12,188,814 were received during the year, and the new policies paid for totalled \$10,139,434, an increase over the new business placed in force was greater than that of 1907. It is very gratifying to note that the Canadian business has again shown a substantial increase. The business from the United Kingdom compared favorably with that of last year, while the business from the United States has been well maintained. The total business in force now amounts to \$124,772,856, the increase for the year being over \$4,000,000.

The Income. The income for the year was \$5,697,319.59, being larger by \$361,277.05 than that of 1908. **And Payments.** 1908. The payments to policyholders totalled \$2,033,332.16. Notwithstanding the constantly increasing volume of business transacted, the expenses of management decreased in 1909, as compared with those of the previous year. A similar reduction in the expenses of management was reported a year ago.

The Assets. The total assets now stand at \$29,686,067.57, being an increase of \$2,572,948.33 over the assets of the year. The greatest gain in any year in the history of the Company. The assets of the Company, as increasing at the rate of nearly \$100,000 a day for each business day of the year, and the safe and profitable investment of these rapidly growing funds is a serious responsibility which receive the constant care of the Directors.

The Surplus. The increase in surplus reported a year ago of \$1,060,000 was up to that time the largest in the Company's history. The Directors are able to announce an even larger gain for 1909, the increase for the year being \$1,195,125, bringing the total Surplus over all liabilities up to \$3,322,764.65. Such a result could only be attained by a strict adherence to those principles of management which four years experience has shown to be the essentials of success, namely, judicious economy in expenditures, prudent investment of funds and skillful selection of risks.

Alotment. The Directors are gratified to be able to announce that the surplus (included in the above) earned on quinquennial dividend policies issued since 1900 enables them to declare a bonus upon such policies as follows:—

Upon life policies a reversionary bonus addition of 1 1/4 per cent. per annum upon the sum assured, amounting to \$92.50 per \$1,000.00 of assurance (or its equivalent value in cash or reduction of premiums to policyholders so electing); upon endowment assurances the bonus addition will be not less than \$5.00 for the quinquennium for each \$1,000.00 of assurance, payable at the end of the endowment period or prior death (or the equivalent of such bonus addition in cash or premium reduction to policyholders so electing).

The profits now declared on these policies are on a cash basis from 30 per cent. to 40 per cent. greater than at the previous quinquennial dividend in 1905, when over \$1,000,000 was allotted to such policies. As illustrating this, attention is drawn to the following actual examples from life policies taken at random and showing the profits now declared, on a cash basis. The table also shows the large increase in profits now declared over those of the two previous quinquennial dividends:—

CASH PROFITS

Quinquennial Year.	Policy No. 61259 Issued 1895	Policy No. 30557 Issued 1895	Policy No. 17135 Issued 1895	Policy No. 4072 Issued 1895	Policy No. 1514 Issued 1894
1900	\$161.50	\$315.50	\$224.50	\$229.00	203.00
1905	265.50	331.50	345.50	331.50	394.80
1910	367.00	453.00	467.10	474.10	521.20

Based on illustration on each case \$10,000.

The Directors confidently anticipate that this announcement will be received with general satisfaction by the many persons who will share in the large amount of profits to be distributed on these policies.

Quinquennial dividend policies issued since 1900 receive their allotment of profits each five years from the date of issue, upon their premium due date in place of the fixed date (— at 31st December) for older policies. The premium rates and reserves for such policies are on a different basis from that for policies issued prior to 1900. For these more recent policies as well as deferred dividend policies a modified form of the Contribution System of allocation of profits has been adopted by the Company, and under this system the profits will vary with the plan of assurance and duration of the policy, as well as with the age of the assured.

The amount of surplus now to be allotted to quinquennial and maturing deferred dividend policies will, it is expected, exceed \$2,000,000.

Our work is so well in hand that the Profit Certificates on all policies now entitled to participate will be mailed on this occasion to the owners of the policies. The following Directors retire by rotation:—Kenneth MacKenzie, Esq., Frank Robertson, Esq., and J. H. Brown, Esq. The following Directors retire by rotation:—Kenneth MacKenzie, Esq., Frank Robertson, Esq., and J. H. Brown, Esq. The following Directors retire by rotation:—Kenneth MacKenzie, Esq., Frank Robertson, Esq., and J. H. Brown, Esq.

It is with pleasure that the Directors again record their appreciation of the efficiency and zeal with which the officers, staff and field representatives have performed their respective duties. Toronto, January 31st, 1910. GEO. A. COX, President.

Spinal-Meningitis.

SOMETHING ABOUT DISEASE WHICH FINDS VICTIMS AMONG THE YOUNG THESE DAYS IN CANADA.

Cerebrospinal meningitis, the medical name of the disease known otherwise as "spinal meningitis," is one of the most fatal diseases of the human body.

It is a disease which attacks the brain and spinal cord, and is characterized by a rapid onset and a high mortality.

The disease is caused by a germ which is found in the cerebrospinal fluid.

Firebug at Work, Say Deseronto People.

THE TOWN IS ALARMED AND MAYOR OFFERS \$300 REWARD FOR CAPTURE OF THE CULPRIT.

Deseronto, Feb. 23.—Mayor Stone has issued a proclamation offering a reward of \$300 for information that will lead to the arrest and conviction of the firebug who is supposed to be operating in town. There have been three conflagrations here lately so far this year. On the night of January 24 a double frame fire was taken later a dwelling in the town. The fire was caused by a firebug who was awakened before any great damage was done. There was a fire on the night of January 24 a double frame fire was taken later a dwelling in the town. The fire was caused by a firebug who was awakened before any great damage was done.

In each case, it is said, there was a firebug at work. The place burned down and the firebug was not caught. The fact that the fire had started was the only clue to the belief that a firebug is at work.

Fell in Icy Water—Saved From Drowning

By Timely Succor.

Owing to timely assistance rendered yesterday afternoon by Mr. J. P. Wilson, a man named Thomas, who was in the habit of procuring a pail of water from a hole in the ground near the water, fell into the icy water.

Mr. Wilson happened to be in the vicinity at the time and saw the man struggling in the water.

He immediately ran to the hole and threw a rope to the man.

The man grasped the rope and was pulled out of the water.

He was then taken to the hospital where he is recovering from his injuries.

Mr. Wilson's timely assistance saved the man from drowning.

He is now being treated by the hospital staff.

His family is very grateful for Mr. Wilson's help.

He was a very kind and generous man.

Funeral services will be held at the St. John's Episcopal Church.

Interment will be in the Mount Pleasant cemetery.

A WORD OF WARNING

Don't buy medicine
—unless you have to

IMAGINARY ailments are the source of many serious cases of sickness. It's so easy to develop our fretful fancies into alarming symptoms—through carefully planned advertising. Sensitive folks—lots of them—may imagine themselves ill to-day—to-morrow they will be really sick.

Do not hand over your hard-earned cash for mysterious and (so-called) miraculous compounds. Few people know what's in these cure-all patent medicines. Your doctor does not know—the makers seldom know and very often do not care. But such patent compounds are so cleverly advertised that ordinary folks can very readily imagine themselves ill when there is absolutely nothing the matter physically. Therefore we say *do not buy medicine unless you have to*. Before you pin your faith to the curative properties of any advertised medicine simply ask your druggist if he knows its ingredients. Take our advice—if you are really sick, get not sick enough to call a doctor—buy

remedies compounded by a house with a solid reputation of over half a century. The formulas of Nyal's Remedies are exceptionally good and such as are in daily use by medical practitioners. Your family physician may learn their ingredients—we know what's in them and **YOU** can know what's in them too. Nyal's people have nothing to conceal about their remedies—all reputable druggists know every formula. Isn't it worth while to know the ingredients of the medicine you take—to know positively that the remedy you are taking is the most suitable for your immediate needs? We recommend Nyal's Family Remedies because we believe in them—*know them to be good*, and because we intend to be in the drug business right in this town for a good many years to come.

N.B.—Remember there's a specific Nyal's Family Remedy for almost every specific illness and every Nyal's Remedy is compounded of the best and purest drugs money can buy.

Paradoxical as it seems, Opium Has Filled Best Positions.

Opium has been so successful in filling the outer of the human race, it has produced suffering and has saved countless thousands from a wretched grave, and has driven countless thousands to an equally wretched grave. History records the introduction of the drug with Arabia, says a writer in *Far Eastern Magazine*. It was not until the middle of the nineteenth century that it reached the west and its population as the poppy, which contained the narcotic element of opium, the 20th century surgeon. China has always been associated with the growth of the opium industry, but it is not for more than 1200 years that it has been so. The first time that a foreigner had realized both the value and the danger of the drug, the poppy was unknown in the United States. It is a sad fact that in the first years of opium importation into the United States, the Chinese had been so successful in making it a staple of their diet that it was not until the middle of the nineteenth century that it was known to the United States. British Pacifics Girls, On her marriage, the British post office says every girl in its empire is doing something to the country's glory for every year of service on her wedding. Though the dowry may not reach the sum of a full current year's remuneration, it frequently amounts to \$200 or \$250, and a case has recently occurred in which the girl figured at not less than \$500.

Why Complain?

Living's pretty happy these days! But did you ever no ice any good come from complaining? The cure lies in this little grain of wisdom—Take advantage of every possible opportunity to remedy the condition—Take advantage of the specialists we're offering daily—Come for them, a little enterprise goes a long way sometimes.

Earle Crew Sends Notification to Ottawa That King Has Conferred the Albert Medal on C. P. R. Conductor Who Saved 35 Many Lives at Spanish River—Citizens of North Bay Hold a Special Celebration.

Ottawa, Feb. 26.—Earle Crew received yesterday morning the following cable from Lord Crewe:

"His Majesty has been pleased to confer the Albert Medal on the first class on Thomas Reynolds."

"Signed," "Crewe."

This is in accordance with the recommendation of the Hon. Mr. Reynolds in receiving the decoration in the first class on the 26th of January, 1909, as he was recognized by the granting of the Albert Medal.

The Albert Medal was first given with distinction in 1871 and 1907, and its recipients are ranked in two divisions, the first class and the second class. The recipients are ranked in two divisions, the first class and the second class. The recipients are ranked in two divisions, the first class and the second class.

Long Meetings of Cabinet Show How the Government Cannot Decide on Question of War.

London, Feb. 26.—Mr. Asquith's participation in cabinet meetings has been a judgment of the public mind. It is only to be expected that the Government will be able to decide on the question of war.

When Starting on That Winter Trip

Don't Forget

NEWBRO'S
HERPICLE
One of the Essentials

"On your winter vacation you will most certainly want a bottle of Herpicle. This is doubly true if your trip contemplates a visit to a warmer climate. It is under conditions of warmth and humidity that the viciousness of the dandruff germ is particularly rampant."

AS IMPORTANT AS YOUR TOOTHBRUSH.

"I find Newbro's Herpicle very beneficial for dandruff. I would not now think of going on a journey without a bottle of Herpicle. It would without any tooth powder. By using it often and thoroughly I find I do not require a shampoo so frequently and my hair is much smoother." M. M. J. Willett.

AN OPINION FROM THE WORLD'S GREATEST LADY RIFLE SHOT.

"Travelling as I do almost continuously, I have been troubled a great deal with dandruff and falling hair and until I tried Herpicle I never found a remedy that was satisfactory." Herpicle is a delightful preparation and fulfills the claims you make for it and no lady's toilet is complete without it.

I heartily recommend it to my friends.

Natty, N.J.

The germ is always busy. There is no escape except in the use of regular intervals of Herpicle. Herpicle cures sure and certain death to this germ and is the one really reliable remedy. An imitation or something just as good would do. Insist on having genuine Herpicle.

A WELL KNOWN MAGISTRATE SAVED AS BY MIRACLE

REDUCED TO A SKELETON AND Doctors Pronounced Case Incurable

SAYS HE OWES HIS LIFE TO "FRUIT-A-TIVES"

Magistrate Speers' signed statement illustrates the unfailing curative and tonic properties of "Fruit-a-tives"—the marvelous fruit medicine that has brought health and strength to thousands in every clime of the Dominion.

"I feel that my complete recovery from a most inevitable death, is practically a miracle. I suffered from severe indigestion for nearly two years, and became a skeleton. I could not work—could not even walk. Two competent doctors pronounced my case incurable. They could do nothing for me as they said my heart was failing. I looked forward to death with relief. I felt only too glad that the doctors had tried many remedies and treatments, but to no avail."

"I was asked to try 'Fruit-a-tives,' and from the onset of taking these wonderful tablets, I was better and gradually this medicine completely cured me, and I have gained over thirty pounds in weight. I am well, thanks to 'Fruit-a-tives.' I am so well that I have sold my farm and bought no more more land. I make this statement reluctantly for the sake of humanity, as I believe my recovery is a miracle, and I am convinced that 'Fruit-a-tives' is a wonderful cure for stomach trouble."

HENRY SPEERS, Esq., J.P.
The most wonderful stomach, heart and nerve tonic in the world. 'Fruit-a-tives' acts directly on the stomach, cleanses the digestive tract, regulates bowels and kidneys, purifies the blood, and restores the digestive function of the heart. 'Fruit-a-tives' is the only medicine in the world that is not made of food. It is the marvelous discovery of a well known physician, fruit juices are combined with heart and nerve tonic in such a way that a new compound is formed. It is this new compound—one of the greatest in the world—'Fruit-a-tives' cures when all else fails—without fail. It gives instant relief when ever the doctor cannot relieve the trouble. We state it, without hesitation, 'Fruit-a-tives' will positively cure every case of indigestion, if properly used. Remember, there is nothing else 'just as good' as 'just the same' as 'Fruit-a-tives'. Tests on mail. 'Fruit-a-tives' and see that you get the genuine. See box. A for \$2.50 per trial size. A Clean Man

Outside cleanliness is less than half the battle. A man may wash himself a dozen times a day, and still be unclean. Health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, clean liver, and clean, healthy blood. The man who is clean in this way will look it and set it. He will be clean in his mind, clean in his character, clean in his life, clean in his blood.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion followed in modern science. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

Prevents those diseases. It makes a man's inside clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy skin.

It restores tone to the nervous system, and gives nervous exhaustion and prostration. It continues to do this until the system is restored. Constipation is the most modern malady. Dr. Pierce's Pleasant Pills cure it. They never give. They take an enemy.

THE STANDARD BANK OF CANADA

A Joint Account

Is a great convenience in handling the family funds. It is opened in the names of two members of the family, and both may make deposits or draw checks over their own individual signature.

This form of account is particularly convenient for those who live some distance from town.

You can open a Savings Account with One Dollar. Why not do so at once?

"Oh, you'll find me much more than just a fat fellow, and the things come."

At this juncture Kauff said that the fat fellow was not a fat fellow, but a very small one. They got to talking about their joys and their sorrows. Kauff said one day after the wife:

"I wish, Kauff, I could express myself as well as you. I feel it all, but I can't get it out."

"You're right," Kauff replied. "I can't get it out either."

KIEF AND KAUF.

A Story of Two Friendly Telegraph Operators

By TOM CARLTON.

(Copyright, 1910, by American Press Association.)

Kiefer of telegraph station 12, Baltimore, was born. The station was not a busy one, and he longed for some one to talk to. He called up Kiefer of a neighboring station, whose acquaintance he had made over the wire some time before.

"Kauf, are you busy?"

"No, are you?"

"Yes, I'm busy holding my chair down."

"I'm holding a novel."

"What's it?"

"Edgar Allan Poe."

"Good! Good! You don't read much stuff like that, do you?"

"No, I don't read much Poe."

then I'm to do the same for you. Too

bad, though, for I'd thought we might

go off together. Odd, isn't it? I've

just the best friend I've got in the

world, and the only one who can

quicker—we're wired no end of

times, and sometimes we don't

fasten right about the same way.

I've never seen you and don't

know whether you're a son or a

daughter, but I'm sure you're a

son or a daughter, and I'm sure

you're a son or a daughter, and I'm

sure you're a son or a daughter, and

I'm sure you're a son or a daughter,

and I'm sure you're a son or a daughter,

and I'm sure you're a son or a daughter,

and I'm sure you're a son or a daughter,
